Why Choose Hamilton Island?

OVERVIEW OF DESTINATION

Hamilton Island is nestled among the Whitsunday Islands, a group of 74 islands just off the Queensland coast and at the edge of the world famous Great Barrier Reef. The island enjoys a year round warm tropical climate, which allows you to visit any time of the year. Hamilton Island has the largest conference facilities in the region catering for up to 700 delegates and offers the idyllic setting for a myriad of events including conferences, product launches, exhibitions and incentives. With purpose built convention facilities and a dedicated team of professional convention staff, Hamilton Island is the ultimate conference destination.

In this quintessential aquatic wonderland, you can revel in the very best of everything that is great about Australia: glorious weather, azure waters, brilliant white beaches, awe-inspiring coral reefs, fascinating flora and fauna, 20km of bushwalking trails, fine food and wines, laid back luxury, and activities almost too numerous to mention.

Hamilton Island boasts its own airport so access to the island is easy. With direct flights from Sydney, Melbourne, Brisbane and Cairns plus connections from other major capital cities you can leave your home in the morning and be meeting in paradise by lunchtime.

There is accommodation to suit everyone including hotel-style and a range of self-catering holiday properties, which are conveniently located close to all conference facilities and venues. The luxury resort, qualia is nestled on the secluded northern-most tip of the island. It is a unique expression of Australian luxury and features 60 individual pavilions. The Beach Club is a beachfront boutique style hotel and, like qualia, exclusively caters for adults. The Reef View Hotel, Hamilton Island's 4-star property, offers panoramic Coral Sea views from the balconies of some of the largest hotel rooms in the South Pacific. The Hamilton Island Holiday Properties range from standard to deluxe, self-contained apartments and are the ideal accommodation for delegates travelling with children or intending on staying pre or post conference with their families.

Hamilton Island is home to 10 restaurants, 6 bars, 7 pools and over 20 specialty stores. Facilities include a chapel, IGA Supermarket, pharmacy, post office, bank, kids club, hairdresser and day spa. There are 13 dedicated meeting rooms and over 10 unique function areas such as secluded sandy beaches and beachfront pavilion to provide a business event with a difference.

RESORTSIDE CONFERENCE VENUES

Hamilton Island has the largest conference facilities in the Whitsunday region catering for up to 700 delegates and offers the idyllic setting for a myriad of events including conferences, product launches, exhibitions and incentives. The resort side conference venues are located within close proximity of Hamilton Island accommodation making it easily accessible to delegates.

CONFERENCE CENTRE AUDITORIUM

The Conference Centre itself is a multi-purpose venue with outstanding flexibility. It is ideal for large meetings, banquets, presentations, trade shows or product launches. The large entrance foyer has a mezzanine level that offers four smaller meeting rooms, ideal for 'breakouts' as well as a small boardroom. The foyer is ideal for refreshments, pre-function activities, exhibition booths. We can also offer a small secretariat/boardroom located within the conference centre. The auditorium seating area is pillar free and has direct ground floor access and stage floor access enabling vehicles and large displays to be driven in with ease.

ENDEAVOUR ROOM

The Endeavour Room is located just a few steps from Catseye Beach. The room features high ceilings, natural light and can be divided into two rooms. Opening out onto Catseye Beach makes it a perfect setting for refreshment breaks and casual lunches. Picnic rugs can be setup on the sand under palm trees, or just behind the Endeavour Room is a lovely garden area called Shady Creek Lawns which is perfect for a sit down (number dependant) or picnic style lunch.

CHART ROOM

The Chart Room is located on the ground floor of the Reef View Hotel and is ideal for smaller meetings.

HAMILTON ISLAND YACHT CLUB VENUES

Cantilevering over Hamilton Island Marina and Dent Passage, Hamilton Island Yacht Club brings a standard of excellence through its unique spirit and style. The Hamilton Island Yacht Club’s recreational and business facilities include a contemporary restaurant and bar which overlooks the marina, a private dining room and five conference and function rooms with sweeping views of Dent Passage.

KETCH & CUTTER ROOMS

The Ketch & Cutter Rooms feature high ceilings, natural light and a stunning backdrop across Dent Passage to Hamilton Island Golf Club. These rooms are ideal for premium conferences, product launches, tradeshows and gala dinners.

AUDITORIUM

The Yacht Club Auditorium features fixed, ascending theatre style seating, perfect for meetings and presentations.

BARNACLE

Located just outside of the Auditorium, this versatile space is ideal for breakout space, morning and afternoon tea breaks or smaller conferences.

PRIVATE DINING ROOM

Located on the top floor of the Yacht Club, this room features spectacular views of the Coral Sea with its own private balcony, perfect as a premium conference boardroom.

BLACK CORAL BOARDROOM

Located by the Bommie Restaurant, this private dining room doubles as a premium conference boardroom.

BOMMIE DECK

From the Bommie deck guests can admire the sweeping views of Dent Passage and take in the last rays of sunshine setting over Hamilton Island Golf Club while enjoying contemporary Australian cuisine.

KEEL DECK

The Keel Deck is located under the Bommie Deck and is a semi-enclosed deck. Suitable for buffet or cocktail functions only.

OUTDOOR DINNER VENUES

On Hamilton Island you are spoilt for choice with a number of unique outdoor dinner venues to choose from. Each night of your conference, delegates can dine in a new and different location. The Hamilton Island Signature dinner packages are a special way to spoil your delegates.

Hamilton Island Golf Club

GOLF COURSE

Designed by champion golfer, Peter Thomson, the par 71 championship Hamilton Island Golf Club on neighbouring Dent Island measures 6,120 metres (6692 yards). The only championship island golf course in Australia, the course has been designed to challenge all levels of golf enthusiasts, from resort guests to professional golfers. The changes in course elevation, restricted landing areas and the ever-present breezes provide a definite challenge from the back tees and enjoyable resort golf from the forward markers.

The island's natural and rugged beauty, together with its mountainous terrain affords stunning 360 degree views across secluded coves and beaches to adjacent passages and islands, and the mainland beyond.

Corporate Social Responsibility

Hamilton Island is on a mission to be green despite being surrounded by a sea of blue. With the tremendous number of visitors to the island each year, having strategies in place to reduce the impact on the environment is crucial to the island's sustainability – even if you're not aware of them.

In this day and age, protecting our natural resources and reducing our impact on the environment is a real consideration to any thinking person. The importance of having environmental initiatives in place is accepted by individuals and big business alike, but the ways in which great gains are made are not always evident, indeed it is often the little things that add up and make the biggest difference. On Hamilton Island, protecting the environment and doing everything possible to minimise the impact of the many visitors each year is essential to ensure the island's survival. Maintaining a positive balance and protecting the often fragile ecosystem of the island is a major consideration in the day to day running of Hamilton Island and a crucial factor to be considered whenever large-scale works are in their planning stages.

Much has been written about the careful planning that went into the design and construction of the world-famous qualia resort, ensuring that the design was not only sympathetic to the area, but preserving as much of the naturally occurring vegetation as possible and, in fact, weaving it into the very design and making it part of the finished project. Despite increasing the development costs considerably, the Hamilton Island Golf Club too, was specifically designed to fit in with the rugged natural environment of Dent Island and retains the natural soils and vegetation, while an environmentally sustainable irrigation system has been put in place to keep the course in mint condition, but without any adverse effects on the ecosystem. Indeed, although Hamilton Island is the largest resort island in the Whitsundays, more than 70 percent of it is preserved in its virgin state, home to a wide variety of animals, trees, ferns and grasses. In addition to being a bushwalker's paradise, the island fosters naturally occurring eucalypts, the leaves from which are used to feed the koalas at the Hamilton Island Wildlife Park on the island. The feeding of other animals though is discouraged on Hamilton Island, with guests educated not to 'feed the locals' and garbage bins supplied all over the island that have been specially designed to keep the rubbish in but the local fauna out. The extensive education program of course extends to the surrounding waters and the Great Barrier Reef itself, with only highly qualified and eco-accredited tourism businesses operating out of Hamilton Island, ensuring best practice is always maintained.

Hamilton Island Enterprises (HIE) is also a staunch supporter of marine park research and is a long-standing participant in the Eye on the Reef program which, along with some 40 other marine tourism operators, constantly monitor and collect data on the health of the Great Barrier Reef, working closely with Great Barrier Reef Marine Park Authority (GBRMPA).

All of these things and so many more go on day after day as an integral part of life on the island. Water is recycled wherever possible and a state-of-the-art waste treatment plant converts sewage to 'A' Class treated effluent, 90 percent of which is reused to irrigate the many parks and gardens around the island. Recycling is a particularly important initiative and Hamilton Island's new recycling plan aims to reduce general waste by 70-80 percent in the next 12 months! This best practice recycling plant separates each material at its source and it is designed to make the process as easy for all involved to implement as possible, through signage, communication, education and availability and easy access to recycling bins. Supported by the Queensland Government's Public Place Recycling Program, this initiative brings together all parties on the island, from staff to guests, local school children and tour operators, and will see awards introduced to encourage participation and recognise those who make a difference.

It all adds up. Phosphate-free cleaning products, power tags to turn off electricity when guests leave their rooms and of course, the ubiquitous electric golf buggies which are so much a part of the Hamilton Island lifestyle, providing transport without any harm to the environment (only service vehicles exist on the island and fuel-powered buggies are being phased out completely). Of course monitoring our impact on the environment and maintaining a healthy balance is an ongoing process, so in 2007 the Hamilton Island Environmental Club was formed. Made up of staff and residents, it exists to discuss and work to improve the environmental initiatives on the island, while Hamilton Island and various concessionaires, staff and clubs are also actively involved in projects like 'Clean up Australia Day', not only on Hamilton and Dent Island, but also on neighbouring Whitsunday and Henning Islands.

It's ongoing but an essential process that is constantly being improved and refined to ensure that every possible base is covered to see that Hamilton Island and its surrounds not only survive, but thrive.

Contact us for more information on suitable group activities such as tree- planting, environmental talks from local Marine Biologists (in conjunction with Great Barrier Reef Day Trip).
