WHY CHOOSE HAMILTON ISLAND?

Hamilton Island is nestled among the Whitsunday Islands, a group of 74 islands just off the Queensland coast and at the edge of the world famous Great Barrier Reef. The island enjoys a year round warm tropical climate, which allows you to visit any time of the year. Hamilton Island has the largest conference facilities in the region catering for up to 700 delegates and offers the idyllic setting for a myriad of events including conferences, product launches, exhibitions and incentives. With purpose built convention facilities and a dedicated team of professional convention staff, Hamilton Island is the ultimate conference destination.

In this quintessential aquatic wonderland, you can revel in the very best of everything that is great about Australia: glorious weather, azure waters, brilliant white beaches, awe-inspiring coral reefs, fascinating flora and fauna, 20km of bushwalking trails, fine food and wines, laid back luxury, and activities almost too numerous to mention.

Hamilton Island boasts its own airport so access to the island is easy. With direct flights from Sydney, Melbourne, Brisbane and Cairns plus connections from other major capital cities you can leave your home in the morning and be meeting in paradise by lunchtime.

There is accommodation to suit everyone including hotel-style and a range of self-catering holiday properties, which are conveniently located close to all conference facilities and venues. The luxury resort, qualia is nestled on the secluded northern-most tip of the island. It is a unique expression of Australian luxury and features 60 individual pavilions. The Beach Club is a beachfront boutique style hotel and, like qualia, exclusively caters for adults. The Reef View Hotel, Hamilton Island's 4-star property, offers panoramic Coral Sea views from the balconies of some of the largest hotel rooms in the South Pacific. The Hamilton Island Holiday Properties range from standard to deluxe, self-contained apartments and are the ideal accommodation for delegates travelling with children or intending on staying pre or post conference with their families.

Hamilton Island is home to 10 restaurants, 6 bars, 7 pools and over 20 specialty stores. Facilities include a chapel, IGA Supermarket, pharmacy, post office, bank, kids club, hairdresser and day spa. There are 13 dedicated meeting rooms and over 10 unique function areas such as secluded sandy beaches and beachfront pavilion to provide a business event with a difference.

RESORTSIDE CONFERENCE VENUES

Hamilton Island has the largest conference facilities in the Whitsunday region catering for up to 700 delegates and offers the idyllic setting for a myriad of events including conferences, product launches, exhibitions and incentives. The resort side conference venues are located within close proximity of Hamilton Island accommodation making it easily accessible to delegates.

HAMILTON ISLAND GOLF COURSE

Designed by champion golfer, Peter Thomson, the par 71 championship Hamilton Island Golf Club on neighbouring Dent Island measures 6,120 metres (6692 yards). The only championship island golf course in Australia, the course has been designed to challenge all levels of golf enthusiasts, from resort guests to professional golfers. The changes in course elevation, restricted landing areas and the ever-present breezes provide a definite challenge from the back tees and enjoyable resort golf from the forward markers.

The island's natural and rugged beauty, together with its mountainous terrain affords stunning 360 degree views across secluded coves and beaches to adjacent passages and islands, and the mainland beyond.

TRADITIONAL OWNERS

OUR COMMITMENT TO HISTORY

We pay our respect to Elders past, present and future generations to come and extend that respect to all Aboriginal and Torres Strait Islander peoples today. We acknowledge the islands and coastline of what we now call the Whitsundays form the traditional lands of the Ngaro or ‘canoe people’.

The islands and coastline of what we now call the Whitsundays form the traditional lands of the Ngaro or ‘canoe people’, who archaeologists report settled in the region approximately 8,000 years ago. The many islands and the surrounding waters, provided a bounty of food and ideal opportunities for shelter, making it a hospitable place for first nations cultures to live and settle. In the spirit of reconciliation, Hamilton Island acknowledges the Ngaro people, and their connection to land, sea and community. We pay our respect to Elders past, present and future generations to come and extend that respect to all Aboriginal and Torres Strait Islander peoples today.

Help your guests connect with country via a unique indigenous experience. The Hamilton Island Business Events department can now put you in touch with traditional custodians to perform Welcome to Country, Smoking Ceremonies and even guided nature walks discovering local plants used as food, medicine and tools.

SUSTAINABILITY

OUR COMMITMENT TO SUSTAINABILITY

Protecting Hamilton Island and its surroundings is not a 'go green' trend, it is a necessity. Thousands of tourists – both domestic and international – visit Hamilton Island each year and ecological sustainability is vital for both the protection and wise use of the Island and the impact on its waters and its inhabitants. Here are some of the ways we are committed to reducing our footprint:

Providing nature-based experiences. Guests have access to a variety of snorkelling, diving and glass bottom boat tours, where they can learn from expert guides about the area's extraordinary biodiversity and the challenges it faces environmentally. Our recently upgraded walking trails were specifically designed to encourage more visitors to explore the natural bushland that makes up 75 per cent of the island, leading to some newly built lookouts as part of our Icons Trail, where they can stop and soak up the views of the surrounding islands and waterways.

Protecting our local marine habitats. Our island-wide erosion and sediment control measures, such as rocky reed bed swale drains, silt traps, gross pollutant traps and promotion of natural vegetation around water courses, minimise run-off organic matter draining into local marine habitats. Hotel cleaning products are sourced from a local mainland supplier and are formulated from plant-derived bioflavonoids to replace synthetic chemicals, which are biodegradable within seven days, reducing impact on the environment.

Recycling and waste management. Single-use plastic cutlery, straws and food storage containers have all been removed from the island. A series of water fountains are available across Hamilton Island, encouraging guests and residents to use refillable water bottles. Complimentary refillable water bottles are provided in some of the island's hotels and to conference delegates. Any items that have reached their end of life such as TV's and computer equipment, and household and buggy batteries are recovered for recycling. Even old mattresses are stripped into their component parts and recycled by a local social enterprise.

Energy efficiency. The island is mostly car free, with the main mode of transport being electric golf buggies. There are many island-wide energy saving measures in place; including solar powered, low wattage and LED lighting, and energy saving devices are also installed in all hotels and most private residences.
